

# APARNA JOSHI

Assistant Professor (Pharmaceutics)

## PROFILE

### CAREER DEVELOPMENT

- Aparna is a knowledgeable and research-oriented assistant professor in pharmaceutics with over 2.5 years of experience in academic teaching in various courses. During this time, she has also guided various students in successful submission of research paper/review articles.
- Before academic teaching, Aparna worked as senior clinical pharmacist in premier hospitals of India. She has gained expertise in medication management process and Adverse Drug Reaction (ADR) monitoring as per NABH/JCI standards.

### CORE COMPETENCIES

- Aparna brings in her hospital experience and uses it to complement the theoretical teachings with their practical significance, providing a holistic view of concepts to her students
- She has also been involved in conducting various national/international audits such as JCI, NABH, UGC and UPTU audits.
